Leadership, Logistics, & Dangerous Materials Handling

The Military Certificates Program prepares students with the technical skills required for successful execution of duties in the fields of Military Leadership, Military Logistics, and Military Dangerous Materials Handling.

Military technical skills involve complex systems, hardware and technologies that possess ever increasing civilian applications. Dependent upon critical thought processes and the ability to utilize these evolving skills, today's military personnel are engaged in mission planning, risks assessment, identifying potential hazards, supervising preparations, identifying and maintaining assets, training personnel, and conducting and supervising additional duties. This certificate program encompasses and addresses these required skills.

The Military Certificates program consist individual certificates in Military Leadership, Military Logistics, and Military Dangerous Materials Handling. Each certificate requires the successful completion of 30 credit hours. Students may seek an individual certificate or complete all three.

[Military On-Site Training](#)

The Military On-Site Training (MOST) program's mission is to enhance the readiness posture of US Army Reserve, National Guard, as well as active units by delivering cost-effective and flexible skill-based training. Click on the link above to learn more about the MOST training program and courses.

[Military Schools](#)

The Military Schools program's primary mission is to provide centralized vocational training to the soldiers of Fort Riley Kansas. This is a unique training mission in that the skills trained are specifically military and not generally available to the civilian market. Additionally, this training venue provides college credits to soldiers for successful course completion. This translates into promotion points which help soldiers advance their military careers. The program's secondary mission is to provide training to US Government employees and other members of the total Army family including Reserve and National Guard personnel, military retirees, and authorized military family members. Click on the link above to learn more about the Military Schools training program and courses.
