# BARTON STRATEGIC PLAN

## FRAMEWORK

The Strategic Planning Framework is the context within which Barton Community College operates to achieve its Mission and Vision. This framework is the foundation of a strategic management approach in which Barton’s leadership team takes responsibility for:

- Driving Student Success by tracking progress and improving teaching and learning.
- Cultivating Community Engagement by fostering and recognizing the value of partnership with community members and businesses.
- Optimizing the Barton Experience for students, the community, and employees by initiating dialogue and feedback opportunities.
- Emphasizing Institutional Effectiveness by defining data and resources critical to planning strategically for the college’s current and future goals.

In this model, planners at all levels use the framework as shared vision, mission, standards, data, and goals to evaluate and create departmental strategic plans. The decisions guided by this framework lead to continuous improvement of Barton’s student services, instructional programs, community enrichment, and operations. College leadership then allocates resources to support ongoing and future operations and projects that are essential to improving overall effectiveness.

Following are the Vision, Mission, Core Priorities, Strategic Goals, and Key Performance Indicators that together create the Strategic Planning Framework.

Additionally, included are the means for reporting Barton’s progress and adjustments to its Board of Trustees, Kansas Board of Regents, and the Higher Learning Commission.

## SUMMARY - PLANS OF WORK

Planning is most effective as part of the day-to-day management of the college. Planning defines and guides the work we do. Barton’s strategic plan begins with and is guided by the college mission:

1. The Mission comes first.
2. The Strategic Plan and Board ENDS are central and internal.
3. The KBOR Plan and HLC accreditation are external.
4. Goals, priorities, and reports guided by Barton’s Mission will help focus alignment.

The college’s planning process provides a framework for planning that creates a structured, mission-centered, strategic context for conducting the essential work of the institution, and a flexible approach for executing that work through the various units of the college.

The plan is implemented through a series of goals and projects identified in work plans in each of the major divisions. This approach provides management, faculty, and staff the capacity to allocate time, effort, and other resources to projects that rise to the top as priorities evolve and to implement large or extended projects in more manageable phases.
