Online Placement Testing

Placement Testing

Barton Community College placement testing determines readiness for college level coursework. Students entering college for the first time without placement scores must take the Accuplacer test. Students must submit test scores if they are pursuing a certificate or associate's degree or are enrolling in a general education class requiring specific test scores. Placement test scores will be used to place students in the appropriate English, Reading, or Math course.

Students should understand the high-stakes nature of these tests in determining their placement in college classes. These tests measure academic capability and should not be confused with tests measuring intelligence or ability. Testing provides both the student and the advisor an effective tool to best position the student for academic success. Through enrollment in proper courses, students are more likely to meet their academic goals.

Students that fail to submit proper prerequisite documents or successful Accuplacer scores by midnight (CST) on the 1st Monday of the session, will not be allowed to enroll in their prerequisite course(s) for the selected session.

Individuals requiring testing accommodations due to disability should contact disabilityservices@bartonccc.edu or call (620) 786-1102.

State Authorization

State Authorization

Changes to the Higher Education Act of 1965 have made it necessary for each institution of higher learning to respond to the following: "If an institution is offering post-secondary education through distance or correspondence education to students in a State in which it is not physically located or in which it is otherwise subject to State jurisdiction as determined by the State, the institution must meet any State requirements for it to be legally offering post-secondary distance or correspondence education in that State. An institution must be able to document to the Secretary the State's approval upon request. State Authorization Regulation Chapter 34, § 600.9(c)(Authority: 20 U.S.C. 1001 and 1002)"

As of July 8, 2015, Barton Community College is a participant in the State Authorization Reciprocity Agreement (SARA) initiative. SARA is a state-level reciprocity process aimed at making the effort to obtain state authorizations more efficient for institutions and to make it easier for students to enroll in distance education programs outside of the states in which they reside.

Barton is working with state agencies to comply with required authorizations so that we can continue to provide educational access to students across the country.

For more information about the SARA initiative and the progress of state and institutional membership please visit www.nc-sara.org.

Student Complaint Process

Barton aims to resolve all student complaints in a fair and expedient manner. Students wishing to file a formal complaint
