

Thank you for your interest in the Certified Nurse Aide (CNA) class offered through Barton Community College. (See schedule of upcoming course offerings.) The class is a 90 hour course, with a combination of theory time and clinical experience. Upon successful completion of the course, you will be eligible to take the certification exam as developed through the Kansas Department of Aging and Disabilities.

There are steps to assist you in the enrollment process which are outlined in the enclosed "Barton Adult Healthcare Program Enrollment Procedures" document. Please complete this process as soon as possible as class size is limited and there tends to be considerable interest in the courses. Unfortunately, we cannot enroll you in the class until we have received the required paperwork and payment is submitted.

Certainly call 620-792-9298 if you have questions.

Take this step toward a rewarding career in the continuum of patient care and allow Barton to become your education provider in this adventure!

Sincerely,

Anita Barker
