11/20/2014 **Manager Laboratory** Atchison, KS

Atchison Hospital, a very large critical-access hospital with gross patient revenues of \$90M and excellent accreditation scores located in Northeast Kansas, has an outstanding opportunity for a Director of Laboratory. Morgan Hunter HealthSearch has been retained to conduct this key search.

Hospital: This new (2010) state-of-the-art facility features 25 private, family-friendly patient rooms, a nine-bed Emergency Department, and large surgical suites that are built to accommodate video and fiber-optic technology,

Opportunity: The Director of the Laboratory reports to the CNO and is responsible for all operations related to 105,000 annual billable inpatient and outpatient lab services. You will monitor quality and compliance with AACP and other regulatory standards, as well as revise policies and procedures to support continuous improvement. The department has an excellent reputation and history with nursing and local physician community.

Candidate Profile: Ideal candidates will present with at least 2 years of medical technologist experience including a minimum 2 years of supervisory or other leadership background. Registry through ASCP or CLA and a Medical Technologist is required. Other desirable traits include the ability to mentor and develop staff toward higher clinical, technical and customer service performance levels, communicate effectively and work collaboratively.

Location: Atchison is located about 45 minutes northwest of the Kansas City metro, about 40 minutes northeast of the capitol city of Topeka, and about 25 minutes southwest of St. Joseph, Missouri. Atchison is known for its vistas of the Missouri River, tree-lined brick streets, boutique shops, quaint restaurants, cafes, historic homes, and stately buildings. Atchison is a magnet for shopping and dining day trippers as well as event-goers to its annual celebrations, including the Amelia Earhart Festival.
