## *Excel in CTE (SB155) LEARNING OPPORTUNITIES*

"Tuition waived for high school students thanks to new state legislation"

The Kansas Senate passed Senate Bill 155 in May 2012. The bill has since been renamed the Excel in CTE Iniaitive. This bill authorizes the state of Kansas to pay tuition charges for tiered Career Technical courses that are tied to Career Technical programs and have supported sufficient enrollment in the past fiscal year. Courses designated as Excel in CTE-eligible will be available to high school students at no cost except textbook and program fees (if applicable).

The following career technical education courses, both online and onsite, qualify for funding.
This means students can take advantage of classes with NO TUITION CHARGED.
Textbooks and program fees may apply.
