LivingConnected[®]

Powered by 

Get Your FREE New Glucose Meter

Your new wireless, cellular or bluetooth-enabled Glucose Meter automatically sends your readings to your own personal diabetes website, and our team of emergency trained clinicians, as well as to your healthcare providers and family at your request. This user-friendly smart biometric device tracks blood levels, food intake and more while providing real-time educational messages to your mobile phone via text or email.

Once You Get Your New Glucose Meter, the LivingConnected Program Provides:

24/7 Live Monitoring, Intervention & Coaching

- You will have access to a health coach, who will work with you to keep you healthy.
- This includes real-time, live clinical team interventions immediately upon the receipt of critical readings.

Care Team Coordination with Instant Feedback & Goal Setting

- Say goodbye to log books! You can share your blood glucose readings instantly with your healthcare providers and family (at your discretion). This includes every result!
- Blood glucose readings are available via web portal, email, and mobile devices.

Diabetes Testing Supplies are Shipped Direct to Your Door

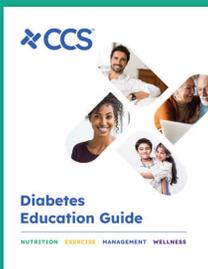

- Test strips, lancing device, lancets and other diabetes testing supplies are included with no out-of-pocket co-pays or deductibles.
- Supplies are automatically shipped to you when you need them.

Improved Outcomes and Reduced Costs

- Members engaged in the LivingConnected program have proven to save money on their healthcare – which means a healthier you with fewer expensive visits to doctors and hospitals.
