Affordance: “The relationship between a tool and an individual that [provides] the opportunity for that individual to perform an action.”

OER Affordances: Access—Affordability — 5Rs

- OER – Immediate access to materials (**Access**)
- OER – No cost/Low Cost (**Affordability**)
- OER – Does that lead to **achievement**? –
 - Instructors and their use of the **affordances** of OER (5Rs) – capitalize on this part of “open” – free = freedom (creativity, adaptability, and innovation)

Education is changing—
Instructors are the change agents
