

**Barton Planetarium is pleased to announce our fall lineup of shows and activities.**

Starting Monday, September 21, the Barton Planetarium will present shows every other Monday evening from 7:00 – 8:00 PM. For new guests, we are located in the Science Building on the north side of campus

**Our First Week**

For the first week, we are proud to present the Barton premier of the fulldome movie "Astronomy: 3000 Years of Stargazing."

*Throughout time, the sky has piqued our curiosity. Eclipses, the regular cycle of the seasons, the rising and setting of the Moon, Sun, and planets, the motion of the stars — all have fascinated mankind since our earliest ancestors first looked up. Monuments constructed across our home planet, from Stonehenge to Machu Picchu, bear witness to humanity's ancient fascination with the stars.*

**Here's what you can look forward to in coming weeks:**

- October 5      *TELESCOPES: "Two Small Pieces of Glass", Build a Telescope*
- October 19    *OUR SOLAR SYSTEM: "Saturn The Ring World" & "Great Planet Adventures"*
- November 2    *HISTORY: "Amazing Astronomers of Antiquity" & "Fate of the Maya"*
- November 16   *DINOSAURS: "Dinosaurs at Dusk: the Origins of Flight" (NEW\*)*
- November 30   *LIFE BEYOND EARTH. "Search For Life in the Universe", "XPlanets"*

***All events are free and open to the public.***
