

Kansas Peace Officers Association provided the following information. Lockdown verses Run-Hide-Fight. After reviewing the information, we are recommending changing our EOP to include the Run-Hide-Fight alternative. This would replace our Lockdown procedure in the EOP. The FBI video could be imbedded in our EOP plan, distributed to employees and students, and if needed it could be added to annual training. RUN – HIDE – FIGHT packs a lot of information into the 6 minute video, delivering the entire message within the attention span of our target audience. We can choose how to deliver the message either by simply hosting the information in the EOP plan, on the Campus Safety website, or creating a mandatory training module. Once we decide how we want this deployed and set it up, RUN – HIDE – FIGHT is maintenance free. We will not have to revisit it. Lastly if people take nothing else away from the video or training, RUN – HIDE – FIGHT alone tells them exactly what to do. <http://www.fbi.gov/about-us/cirg/active-shooter-and-mass-casualty-incidents/run-hide-fight-video>
