

# HLC Update

22-Jul-2019

## HLC Student Success Academy:

Barton was accepted to participate.

### 23-Jul-19 Webinar

HLC staff will present an overview of the Academy structure and timeline and outline expectations for participants. Tips for building an effective team will also be provided. Individuals who will be responsible for leading their team should attend.

### 25-Jul-19 Accreditation Committee Meeting

Agenda item: Formalize SSA team participant recommendation to be submitted to Dr. Heilman for approval.

### 31-Jul-19 Webinar

Institutions participating in the Academy must complete a multi-step environmental scan, each part of which is referred to as an inventory. The inventories serve as self-assessments of capacity and challenges related to student data, current initiatives, policies & procedures, and engagement. The information gathered in the inventories is scaffolded to connect to the roundtables and webinars, leading to the development of a student success plan. Strategies for completing the first inventory on student data and tips for preparing for the first face-to-face event will be presented. Those responsible for completing the inventories should attend the webinar.
