

Website Redesign Project and Drupal 8 Upgrades

Drupal 8 Upgrades

“What’s a drupal?” – Drupal is the back end of the website: the editing tools we use to update and organize the website.

We are currently working on upgrading all websites to Drupal 8 (from 7). Bartonccc.edu is already in Drupal 8

Benefits of the latest version of Drupal:

- **Easier future upgrades**
- **Responsive and mobile optimized**
- **Better back end**
- **More Security built in by default**

Website moving to Google from Amazon Web Services

(Thanks Michelle and company!)

Website Redesign

Key factors considered in this redesign:

- Mobile-first
- Marketing/Recruitment focus
- Represent all areas of the college
- New functionality and interactivity (better search, sort through programs, etc.)
- Clean look and feel
- Modular – easily re-designable

Status: Building empty shell to be ready for content.

Next Steps:

- Plug in and test new marketing software (Pardot) and build new site.
- Send to all users to poke around and provide feedback.
- Consider feedback for changes | meet with areas in need of content reorganization.
- Finalize site and launch.

ADA Report

Highlights

- Front end Accessibility issues are still easily resolved via SiteImprove, particularly helpful in educating on new issues
- Media items are tagged correctly with alt text
- Color contrast is AA compliant
- ADA will be part of the conversation in the redesign per newly recognized/established issues

Challenges

Currently, the biggest challenge on ADA is **document remediation**, which has been discussed in both the ADA Committee and reviewed in PTP. We have our 2020-2022 Curriculum Guides remediated, however it is not a sustainable process for all documents due to the manual upload requirements. **Ideally, we would have a cloud-based storage solution that would allow for a proprietary option for remediation.** This would ensure our documents online are automatically remediated regardless of who uploads those files.

We have a small list of items that will be corrected in the redesign as they are hard coded and must be resolved in the back end.

Other updates:

Begin process of reworking text with web editors based on Gunning Fog Readability Index.

Types of learners

What type of learner are you? Read below to find out and for information on how to get started!

High School Student | Adult Learner | International Student | Online Learner

High School Student

Not only is high school fun and exciting, but it's also a time to think about life after high school. Although this is a scary thought for some or an exciting thought for others, Barton can help you while you are still in high school.

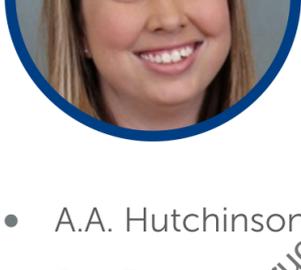

How can Barton help?
