

Individual Status	Guidance		
<p>Anyone, regardless of vaccination status, that is lab confirmed or probable case of COVID-19</p>	<p>Stay home for at least 5 days Stay home for 5 days and isolate from others in your home. Wear a well-fitted mask if you must be around others in your home. After 5 full days in home isolation, wear a well-fitted mask indoors and outdoors when around others for an additional 5 days. Do not go to places you are unable to wear a mask. If you cannot or will not wear a mask, stay home for 10 days and isolate from others in your home.</p>	<p>Ending home isolation with masking if you had symptoms. End isolation after 5 full days if you are fever free for 24 hours (without fever reducing medication) and your symptoms are improving. If you did NOT have symptoms End isolation after at least 5 full days after your positive test.</p>	<p>Barton Community College Additional Guidelines/Caveat Students who live in the dorms (student housing) will isolate in their assigned dorm. You do have the option, if feasible, to return home for the isolation period.</p>
<p>Exposed Individuals who are: Asymptomatic, regardless of vaccination status.</p>	<p>No Quarantine You do not need to stay home unless you develop symptoms. It is recommended to wear a high quality, well-fitted mask when around others for 10 days. Monitor for symptoms Watch for symptoms until 10 days after you last had close contact with someone with COVID-19. Testing If you remain without symptoms, you can get tested 5 days after you last had close contact with someone with COVID-19. If you develop symptoms, immediately isolate and get tested. Continue isolation until you have received results.</p>	<p>Ending Monitoring period End your 10-day monitoring period if you have developed COVID-19. You may stop wearing a mask if you choose.</p>	<p>Barton Community College Additional Guidelines/Caveat You may attend in-person classes, it is HIGHLY RECOMMENDED to wear a mask while in class. If you develop symptoms Immediately self-isolate and get tested. Continue to stay home until you know results. Wear a well-fitted mask if you must be around others.</p>
