

**ENDS Statement Six
Regional Workforce Needs
Fiscal Year 2010**

Workforce Training and Community Education

What drives you?
BARTON
COMMUNITY COLLEGE

The College will address regional workforce needs...

Indicator #1 - The College will develop strategies to identify and address on-going needs

The College's Workforce Training & Community Education Division utilizes a variety of external resources to respond to regional workforce needs. Specific resources that assist with the identification of on-going workforce needs include:

Advisory Boards

- An essential ingredient to connect classroom pedagogies with workforce needs.
- Individuals who serve on advisory boards are recognized and respected representatives of business and industry.
- Members assist in the development of programs that ensure that our students have the skills necessary to compete and succeed in the workplace
- Barton Advisory Boards:

Agriculture	Emergency Service Education
Automotive	Graphic Design
Business	Medical Assistant
Community Based Job Training Grant	Medical Laboratory Technician
Computer Aided Drafting	Natural Gas
Corrections	Information Technology
Criminal Justice	Nursing
Dietary Manager	Welding
Early Childhood	

School Districts

- School districts provide insight into the educational interests and needs of students, parents and personnel.
- Barton partners with 17 individual schools within 15 school districts. The list includes:

USD 112 - Central Plains	USD 401 – Chase	USD 431 – Hoisington
USD 327 - Ellsworth	USD 403 – Otis-Bison	USD 432 – Victoria
USD 350 – St. John	USD 405 – Lyons	USD 489 – Hays
USD 355 – Ellinwood	USD 407 – Russell	USD 495 – Larned
USD 395 – LaCrosse	USD 428 – Great Bend	USD 496 – Pawnee Heights

Employers

- It is critically important that the College extend itself to employers across the region to develop and maintain professional relationships.
- Creation of these partnerships places the institution in a position of awareness with respect to happenings within the business community, i.e. available positions, skills needed, economic changes, etc.

Chamber of Commerce & Economic Development Boards

- The College's involvement with Chambers and Economic Development Boards places the institution in a key position to be aware of community needs and developments.
- The College currently serves as a member of the Great Bend, Ellinwood and Hoisington Chambers.
- Effective 2011, the College will be a chamber member of all service area communities. This opportunity is supported by the College's Foundation.

Labor Data

- The College includes labor data as a component of determining need for new and enhanced career technical programs.
- The College utilizes labor data found in the Kansas Job Outlook, the National Occupational Outlook Handbook as well as job and labor data available in partnership with KansasWORKS.

Trends & Opportunities

- The key to being prepared for a trend and/or an opportunity is paying attention to what is occurring at the local, state and national levels.
- Healthy partnering, participation in community activities, attendance at state meetings, and awareness of political and strategic events position the College to act in a responsive manner with respect to addressing regional workforce needs.

NURS 1261, Medical Surgical Nursing IV	\$250.00	Student supplies, equipment, liability insurance, course testing packet
Preschool Language & Literature	\$20.00	Supplies & Materials

Indicator #3 & 4 - The College will build effective partnerships in addressing workforce needs and be recognized as a leader in economic development.

Higher education is economically pivotal. As a nation and as individuals, we need more constituents with education and training beyond high school—more than we have ever needed before. In the economic interest of the nation, we must ensure that the opportunity to receive education and training is available to everyone.

In the economic interest of the state of Kansas and more critically important to Barton and its service area, it is the institution’s responsibility to provide responsive education and training. In addition to the traditional learning opportunities afforded to our constituents as reflected in college enrollment reports, it is noteworthy to address regional workforce needs that have been met during the FY 10 fiscal year. The following captures a snapshot of such training that was offered in response to industry requests and needs:

Partnership Testimonials

“The Business Management and Leadership program gives working professionals the ability to meet employer obligations while continuing with career aspirations. Barton offers convenient classroom hours and program flexibility, which allows students to complete the program in a pace to match their lifestyles. Courses are taught by local college instructors and community professionals who create networking opportunities that extend beyond the classroom.”

***Brenda Kaiser, Assistant Human Resource Director,
CPI Qualified Plan Consultants Inc.***

“Local companies and organizations have opportunities for training of employees throughout the State of Kansas and from large regional and even national companies. Barton's workforce development staff will work with local companies to provide training that is just as effective, if not better than other training opportunities and they will customize the training to fit the specific needs of the company. Barton will provide training at the company's worksite, college campus or in our community, thus eliminating the expense of travel and boarding associated with employee training. Barton is a great resource to effectively drive employee training for any company or organization”

***John Moshier - Human Resources Manager
The Fuller Brush Company, Great Bend***

“Our Bank chose to send several managers to the recent series on Supervisory Skills. We found the training to be very practical and useful. The presenter brought good handout materials and 20+ years of real world experience in HR. She also was very willing to answer questions. In addition, the training was conveniently held at Barton Community College. The training series was money and time very well spent. We appreciate what a resource the College is to this area!”

***Paul Snapp - President
First Kansas Bank, Great Bend***

“The Customer Service Training we received from Barton was extremely beneficial for our hospital. Everything shared was applicable and was customized for our work environment. Because the program was interactive, it kept our employees interested and engaged. I observe daily employees using the principles that were taught and hear the terminology that was share at the training. The Customer Service Training set the right tone for our whole work environment and gave us exactly what the management team wanted.”

***Pam Chambers - Administrator
Great Bend Regional Hospital, Great Bend***
