

**ENDS Statement Six  
Regional Workforce Needs  
Fiscal Year 2012**

***Workforce Training  
and  
Community Education Division***

*What drives you?*  
**BARTON**  
COMMUNITY COLLEGE

## Indicator #1

### The College will develop strategies to identify and address on-going needs

The College's Workforce Training & Community Education Division utilizes a variety of external resources to respond to regional workforce needs.

#### Advisory Boards

- Individuals who serve on advisory boards are recognized and respected representatives of business and industry.
- Members assist in the development and enhancement of programs that ensure students have the skills necessary to compete and succeed in the workplace

Adult Healthcare	Early Childhood
Agriculture	Emergency Service Education
Automotive	Information Technology
Business	Medical Support Programs (MA, MC, MT)
Corrections	Medical Laboratory Technician
Criminal Justice	Natural Gas
Dietary Manager	Nursing
	Pharmacy

#### School Districts

- School districts provide insight into the educational interests and needs of students, parents and personnel.
- Barton partners with 16 individual schools within 15 school districts. The list includes:

USD 112 - Central Plains	USD 401 – Chase	USD 431 – Hoisington
USD 327 - Ellsworth	USD 403 – Otis-Bison	USD 432 – Victoria
USD 350 – St. John	USD 405 – Lyons	USD 489 – Hays
USD 355 – Ellinwood	USD 407 – Russell	USD 495 – Larned
USD 395 – LaCrosse	USD 428 – Great Bend	USD 496 – Pawnee Heights

#### Employers

- It is important to partner with employers across the region to advance the College's goal of providing responsive education suitable for a trained workforce.
- Partnering with employers provides the institution an awareness of what is happening within the business community, i.e. available positions, needed skills, economic changes, etc.

#### Chamber of Commerce & Economic Development Boards

- The College's involvement with Chambers and Economic Development Boards places the institution in a key position to be aware of community needs and developments.
- The College currently serves as a member of all service area Chambers.

**Labor Data**

- The College includes labor data as a component of determining need for new and enhanced career technical programs.
- The College utilizes labor data found in the Kansas Job Outlook, the National Occupational Outlook Handbook as well as job and labor data available in partnership with the KansasWORKS.

**Trends & Opportunities**

- The key to being prepared for a trend and/or an opportunity is paying attention to what is occurring at the local, state and national levels.
- Active partnering, participation in community activities, attendance at state meetings, and awareness of political and strategic events position the College to act in a responsive manner with respect to addressing regional workforce needs.

Case New Holland	30 Series and Axial Flow Combine Update	20
Case New Holland	30 Series Combine Introduction and Productivity	10
Case New Holland	30 Series Flagship Combine Hyd and Elect	19

### **Workforce Partnership in Education Award**

The College is highlighting the value of its workforce partners through the creation of an award that will honor one business or organization every six months. The “Workforce Partnership in Education” award was established with the first award going to local workforce giant CPI Qualified Plan Consultants Inc.

“Those of us in the Workforce Training and Community Education (WTCE) Division could not do our jobs on any given day if it wasn’t for partnerships,” said Dean of Workforce Training and Community Education, Elaine Simmons.

Award recipients are selected by a panel of Barton administrators from nominations submitted by WTCE staff. Criteria for selection cover a wide swath of partnership involvement and/or contributions to programs and industries.

The concept of a partnership award is an idea borrowed from another college, said Barton Executive Director of Institutional Advancement Darnell Holopirek. “When something works well somewhere else, you try it,” she explained. Holopirek added that a common misconception is that supporting Barton only involves financial giving. But there are other ways to establish support with the College, she said.

“In working with Elaine and her group, I’ve realized over the years, it’s not always about money,” said Holopirek. “It’s encouragement and working together for a common goal to see the success of our students. It’s not just one thing that makes you a supporter of Barton Community College. Partnership takes a lot of individuals and a lot of businesses.”

Though Barton’s first award recipient is the area’s largest private employer, future winners won’t necessarily be large businesses, explained Simmons.

“I want folks to understand there are so many ways to be a partner,” she said. . “CPI is a true engine to the economic success of this area with its organization and the employment of the people and all they contribute to the community and to the institution. At the same time, partnership isn’t always about size. We have small businesses and individuals representing entities across our service area who make a difference.”

Recipients of the semiannual award will be invited to a special luncheon where their award will be presented. They will also attend a special dinner with College and BCC Foundation Board members toward the end of the year.

## **Partnership Testimonials**

Since 2002, Barton Community College has worked alongside the Kansas Department of Corrections to make the world a safer place through inmate education efforts and correction officer training programs.

The latter is a 17-hour certificate course and an Associates of Applied Science in Corrections degree.

“We would like to have the best trained workforce and like for our employees to have the opportunity to grow,” Kansas Department of Corrections Secretary Ray Roberts said.

Warden at Larned Correctional Mental Health Facility Doug Waddington agrees official training helps validate a person’s interest and decision to work in corrections.

“It’s a nice jump start and a good motivator, and it can help a student view corrections as a career and not just a job,” he said.

Barton Community College has been supplying area hospitals with well-trained medical professionals for decades, but a quick look behind the scenes reveals there is more at play than just a strong local program. The top-notch curriculum evolved out of a working partnership between the College and Clara Barton Hospital of Hoisington.

The two local economic engines have been fine-tuning their cooperative efforts for more than 20 years, during which countless medical laboratory technicians and nursing program graduates from Barton worked through clinicals at Clara Barton Hospital.

“We’re a proud supporter of Barton and its great programs,” Clara Barton CEO Curt Colson said. “It’s a blessing for everyone in Barton County and the surrounding communities.” Clara Barton Nursing Director, Jane Schepmann, said she appreciates the opportunity to serve as a clinical site, and pointed out that there are many advantages to the partnership with Barton. “They readily accept input from clinical sites. We have a very good relationship with them,” she said.

MLT Program Director Cheryl Lippert said the feeling is mutual, “It’s excellent. They hire our students and are pleased with our students, and they have been a great supporter of the program,” she said.

Kyler Jones started working his way through Barton’s paramedic program at the young age of 19, and while dealing with a serious heart condition. Still, he persevered and graduated, and now works as a Lab Assistant in Great Bend.

“Kyler relates to his patients on a much deeper personal level after what he went through medically,” said Jenny Ladd, EMS programming specialist. “He shows compassion and is always striving to improve himself and his service.”

Jones said he chose Barton for its convenience and the availability of relevant coursework, but he got more than he expected.

“The classes were scheduled so I could still work full time, and the teacher was always accommodating if something came up! I got a quality education that prepared me for everything I would come across in my career,” Jones said. “While I was still in school, I got a job offer for when I graduated. They were impressed with my knowledge base and how well I performed the tasks that needed done. Barton Community College propelled me to where I am today!”

Elizabeth McKain finished her accounting degree in the summer of 2012, and is now gainfully employed at Fuller Brush Company as an accounts payable clerk.

She said Barton provided all the skills she needed, but it was her professors who went above and beyond and taught her how to be a true professional. “I chose Barton because I heard many great things about the faculty and the one-on-one experience you get. Barton was also very affordable,” she said. “I was able to gain a lot of knowledge about the field I studied and they emphasize the importance of work ethic. They teach the information in a way that is easy to remember and understand.

“They help to teach students how to be responsible and do the work right the first time. They teach students the importance of timeliness and doing their best. Barton helps to instill candidate with solid educational skills to help the local businesses meet their goals.”
