## 2020-2021

Kenneth Kolembe, Instructor, Fort Riley Campus

*"I had been treated my whole life like there was something wrong with me because I didn't understand math concepts. While taking Mr. Kolembe's math classes, he really made sure that we understood. Without knowing it, he made me realize that I wasn't stupid in math. It was a life-changer for me because the field I want to go into has a lot of prerequisite math and science. He was awesome and I don't hesitate to recommend him to anyone I know that needs to take a math class."*
