

APPROVAL OF AQIP ACCREDITATION PROCESS

Detail: As Dr. Gabelmann shared with the Board at last week's study session, the College has been considering transitioning from the 10-year accreditation process to the AQIP alternative. Attached please find an overview of this alternative process, which provides a model for continuous improvement and requires an ongoing review of systems and processes.

Recommendation: Following Dr. Gabelmann's presentation, the Administration recommends that the Board authorizes the College to proceed in the AQIP application process.
