

**Barton Community College  
Board Meeting  
October 23, 2014**

**Wrestling Program:**

As discussed at the study session, the addition of a Wrestling program has the potential of increasing our student numbers by 30-40 students. There are a number of Community Colleges within Kansas that already have wrestling programs in place with a couple of other considering the addition of the sport. The addition of a Wrestling program will provide additional options for those High School students within our Service area that wish to compete at the next level.

The financial analysis for the program projects that the program's revenues will exceed expenditures around year 2 (due to startup costs).

**Recommendation:** The Administration recommends that the Board of Trustees approve Wrestling as an additional sport for FY16.
