

Leadership Project

ELAINE SIMMONS – BARTON COMMUNITY COLLEGE

Barton Leadership Institute

Background

The Kansas Community College Leadership Institute (KCCLI) targets a growing concern throughout the Kansas higher education landscape.

Significant numbers of leaders are nearing retirement, while recruitment for new leaders is difficult particularly in rural Kansas areas.

Barton faces this challenge and acknowledges forthcoming retirements in administrative and/or management positions.

The average age of Barton's full-time employees is 49.37 years.

Assignment

Participants of the inaugural KCCLI class are required to complete a leadership project.

The project must address a need at the participant's home institution and have the potential to be replicated across Kansas.

The project must be approved by the participant's president as well as KCCLI leadership.

Project & Purpose

Barton's Leadership Institute is designed to supplement KCCLI and provide employees the chance to develop skills that will positively contribute to Barton's success.

The institute will mirror aspects of the state leadership program with localized influence in participant selection, programming and training timeframe.

Elaine Simmons is responsible for the development of the Barton institute with assistance from President's Staff, Human Resources, Professional Development Committee and WTCE's Workforce Training Coordinator.

Planning for the leadership program is occurring during the 2015-2016 school year with the first institute scheduled to begin fall 2016.
