 - g. IPEDS – Outcome Measures – In Progress

Quote from Ball State Testifying before their legislature:

“It’s almost impossible for administrators to keep up with the mandates,” he said. “My biggest concern is ... instead of actually educating people ... we spend all our time focused on litigation and compliance outcomes. It puts everybody in the mentality of: ‘My new job is not to get sued, fined or lose federal funding. I don’t want to be the person who caused Ball State to lose federal funding and go out of business.’ ” Peter Lake at Ball State
