1. The Kansas Higher Education Coordination Act included a mandate for a Postsecondary Database. Specifically, K.S.A. 74-3205d charges the Board with the responsibility to "collect and analyze data and maintain a uniform postsecondary education data base."

2. Kansas Statute 74-3202d established performance-based funding for technical colleges, community colleges, state universities and Washburn University. Each institution's receipt of new state funds is contingent upon meeting goals outlined in its Performance Agreement. Institutions submit a Performance Agreement for Board approval once every three years and performance is evaluated annually.
