Securing Home Devices

- Secure Windows Computer

- Secure Apple Computer

Create a local user account

- Select the **Start** button, select **Settings** > **Accounts** and then select **Family & other users.** (In some editions of Windows you'll see **Other users**.)
- Select **Add someone else to this PC**.
- Select **I don't have this person's sign-in information**, and on the next page, select **Add a user without a Microsoft account**.
- Enter a user name, password, password hint or choose security questions, and then select **Next**.

Change a local user account to an administrator account

- Under **Settings** > **Accounts** > **Family & other users**, select the account owner name, then select **Change account type**.
- Under **Account type**, select **Administrator** and **OK**.
- Sign in with the new administrator account.
