Barton Community College Data Sets – 09/09/2019

Barton uses Excel, MS Access, and Power BI to create reports. Over the next few years we are going to move most reporting to Power BI. By utilizing Apps, we are better able to index and track all the reports, while giving each department their own customized views.

One important feature is the ability to automatically send reports, such as budgets, through weekly emails to budget managers.

Below are the Apps currently available.

Administration SEP 5, 2019	Advisement AUG 23, 2019	College Wide SEP 5, 2019	Emergency Medical Servi... AUG 20, 2019
Instruction SEP 5, 2019	President's Office SEP 4, 2019	Student Services AUG 23, 2019	The Center AUG 22, 2019

Each app is setup based on the departmental needs.
(Items in red denote report cannot be shared publicly because of FERPA (Family Educational Rights and Privacy Act).

The **College Wide App** is available to all college employees. Below is a list of the reports available.

Active Employee Directory
All Sports Schedule
Bulletin
Committee list
Corrections
Dashboard
Enrollment Credit Headcount by Term
