

# Active Learning Classroom

# How it came to be...

- Instructors who wanted to teach in an interactive way
- Two grant attempts that failed
- Nex-Tech came along

# GOALS:

- Collaboration Focus
- Wireless
- Faculty Friendly
- HD
- Flexible Seating Options
- Mobility
- Durability & Value

# FURNITURE

- Pivot Jr Workstation

- Flex Active Flip Table
- OM5 Active Chair

# Technology

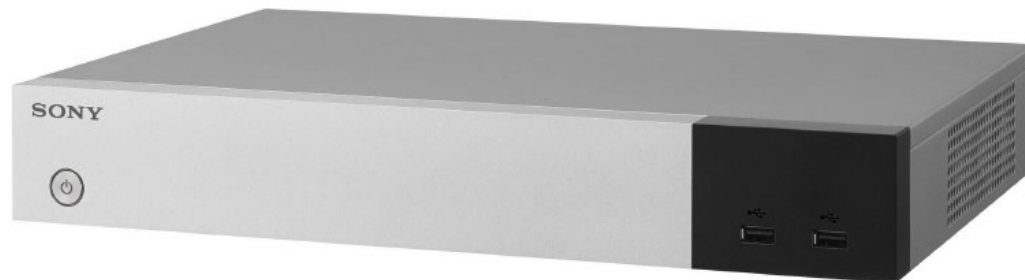

- Hovercam Pilot

- Interactive Display

- Sony Vision Exchange

# Sony Vision Exchange Capabilities

- Drag and drop on touch screen to control.
- Whiteboards can be brought up anytime for brainstorming sessions and note taking.
- Any image on the Main View can be saved as a snapshot together with annotation on top.
- Any student can easily mirror their BYOD content.
- Enhance discussions by simple switching, annotation/digital tag whiteboard mode
- Instructors can monitor and select any group's information then share to all other group screens.
